From the bestselling author of *Less Than Zero* and *American Psycho*, *The Rules of Attraction* is a startlingly funny, kaleidoscopic novel about three students at a small, affluent liberal-arts college in New England with no plans for the future--or even the present--who become entangled in a curious romantic triangle. Bret Easton Ellis trains his incisive gaze on the kids at self-consciously bohemian Camden College and treats their sexual posturings and agonies with a mixture of acrid hilarity and compassion while exposing the moral vacuum at the center of their lives. Lauren changes boyfriends every time she changes majors and still pines for Victor who split for Europe months ago and she might or might not be writing anonymous love letter to ambivalent, hard-drinking Sean, a hopeless romantic who only has eyes for Lauren, even if he ends up in bed with half the campus, and Paul, Lauren's ex, forthrightly bisexual and whose passion masks a shrewd pragmatism. They waste time getting wasted, race from Thirsty Thursday Happy Hours to Dressed To Get Screwed parties to drinks at The Edge of the World or The Graveyard. *The Rules of Attraction* is a poignant, hilarious take on the death of romance. The basis for the major motion picture starring James Van Der Beek, Shannyn Sossamon, Jessica Biel, and Kate Bosworth.

Incisive, controversial and startlingly funny, *The Rules of Attraction* examines a group of affluent students at a small, self-consciously bohemian, liberal-arts college on America's East Coast. Lauren, who changes the man in her bed even more often than she changes course, is dating Victor but sleeping with Sean. Sean - cool, ambivalent and deeply cynical - might be in love with Lauren, but he's not going to let that stop him from bedding Paul. Paul, as shrewd as he is passionate, is Lauren's ex-lover and the final point in this curious triangle. This is a breathtaking tale of sex, expectation, desire and frustration.

The basis of the major motion picture starring Billy Bob Thornton, KimBasinger and Mickey Rourke, *The Informers* is a seductive and chillingly nihilistic novel, in which Bret Easton Ellis, returns to Los Angeles, the city whose moral badlands he portrayed so unforgettably in *Less Than Zero*. This time is the early eighties. The characters go to the same schools and eat at the same restaurants. Their voices enfold us as seamlessly as those of DJs heard over a car radio. They have sex with the same boys and girls and buy from the same dealers. In short, they are connected in the only way people can be in that city. Dirk sees his best friend killed in a desert car wreck, then rifles through his pockets for a last joint before the

ambulance comes. Cheryl, a wannabe newscaster, chides her future stepdaughter, "You're tan but you don't look happy." Jamie is a clubland carnivore with a taste for human blood. As rendered by Ellis, their interactions compose a chilling, fascinating, and outrageous descent into the abyss beneath L.A.'s gorgeous surfaces.

Bret Easton Ellis delivers a riveting, tour-de-force sequel to *Less Than Zero*, one of the most singular novels of the last thirty years. Returning to Los Angeles from New York, Clay, now a successful screenwriter, is casting his new movie. Soon he is running with his old circle of friends through L.A.'s seedy side. His ex-girlfriend, Blair, is married to Trent, a bisexual philanderer and influential manager. Then there's Julian, a recovering addict, and Rip, a former dealer. Then when Clay meets a gorgeous young actress who will stop at nothing to be in his movie, his own dark past begins to shine through, and he has no choice but to dive into the recesses of his character and come to terms with his proclivity for betrayal.

Set in Los Angeles in the early 1980's, *Less than Zero* has become a timeless classic. This coolly mesmerizing novel is a raw, powerful portrait of a lost generation who have experienced sex, drugs, and disaffection at too early an age. They live in a world shaped by casual nihilism, passivity, and too much money in a place devoid of feeling or hope. Clay comes home for Christmas vacation from his Eastern college and re-enters a landscape of limitless privilege and absolute moral entropy, where everyone drives Porches, dines at Spago, and snorts mountains of cocaine. He tries to renew feelings for his girlfriend, Blair, and for his best friend from high school, Julian, who is careering into hustling and heroin. Clay's holiday turns into a dizzying spiral of desperation that takes him through the relentless parties in glitzy mansions, seedy bars, and underground rock clubs and also into the seamy world of L.A. after dark.

The author of *American Psycho* and *Less Than Zero* continues to shock and haunt us with his incisive and brilliant dissection of the modern world. In his most ambitious and gripping book yet, Bret Easton Ellis takes our celebrity obsessed culture and increases the volume exponentially. Set in 90s Manhattan, Victor Ward, a model with perfect abs and all the right friends, is seen and photographed everywhere, even in places he hasn't been and with people he doesn't know. He's living with one beautiful model and having an affair with another on the eve of opening the trendiest nightclub in New York City history. And now it's time to move to the next stage. But the future he gets is not the one he had in mind. With the same deft satire and savage wit he has brought to his other fiction, Bret Ellis gets beyond the facade and introduces us, unsparingly, to what we always feared was behind it. *Glamorama* shows us a shadowy looking-glass reality, the juncture where fame and fashion and terror and mayhem meet and then begin to resemble the familiar surface of our lives.

Bret Ellis, the narrator of *Lunar Park*, is the bestselling writer whose first novel *Less Than Zero* catapulted him to international stardom while he was still in college. In the years that followed he found himself adrift in a world of wealth, drugs, and fame, as well as dealing with the unexpected death of his abusive father. After a decade of decadence a chance for salvation arrives; the chance to reconnect with an actress he was once involved with, and their son. But almost immediately his new life is threatened by a freak sequence of events and a bizarre series of murders that all seem to connect to Ellis's past. His attempts to save his new world from his own demons makes *Lunar Park* Ellis's most suspenseful novel. In this chilling tale reality, memoir, and fantasy combine to create not only a fascinating version of this most controversial writer but also a deeply moving novel about love and loss, parents and children, and ultimately forgiveness.

The Pulitzer Prize-winning author's "astonishing" debut novel, about a son's struggle to find his own identity and integrity (*The New York Times*). Michael Chabon, author of *The Amazing Adventures of Kavalier & Clay*, *Moonglow*, and *The Yiddish Policeman's Union*, is one of the most acclaimed talents in contemporary fiction. *The Mysteries of Pittsburgh*, published when Chabon was just twenty-five, is the beautifully crafted debut that propelled him into the literary stratosphere. Art Bechstein may be too young to know what he wants to do with his life, but he knows what he doesn't want: the life of his father, a man who laundered money for the mob. He spends the summer after graduation finding his own way, experimenting with a group of brilliant and seductive new friends: erudite Arthur Lecomte, who opens up new horizons for Art; mercurial Phlox, who confounds him at every turn; and Cleveland, a poetry-reciting biker who pulls him inevitably back into his father's mobbed-up world. A *New York Times* bestseller, *The Mysteries of Pittsburgh* was called "astonishing" by Alice McDermott, and heralded the arrival of one of our era's great voices. This ebook features a biography of the author.

A cult classic, adapted into a film starring Christian Bale. Is evil something you are? Or is it something you do? Patrick Bateman has it all: good looks, youth, charm, a job on Wall Street, reservations at every new restaurant in town and a line of girls around the block. He is also a psychopath. A man addicted to his superficial, perfect life, he pulls us into a dark underworld where the American Dream becomes a nightmare . . . With an introduction by Irvine Welsh, Bret Easton Ellis's *American Psycho* is one of the most controversial and talked-about novels of all time. A multi-million-copy bestseller hailed as a modern classic, it is a violent black comedy about the darkest side of human nature.

How southern universities presently contend with an inherited panoply of words and symbols that embody and perpetuate Old South traditions  
*In Heritage and Hate: Old South Rhetoric at Southern Universities,*

Stephen M. Monroe presents the US South as a pulsating rhetorical landscape, a place where words and symbols rooted in a deeply problematic past litter the ground and contaminate the soil. This provocative text focuses on predominantly white southern universities where Old South rhetoric still reverberates, empowering rebel flags to stifle racial harmony, school cheers to reinforce racial barriers, and student yearbooks to create and protect an oppressive culture of exclusion. Across the region, in college towns like Oxford, Mississippi, Athens, Georgia, and Tuscaloosa, Alabama, communities remain locked in a difficult, recursive, and inherently rhetorical struggle wrestling with this troubling legacy. Words, images, and symbols are not merely passive artifacts of southern history, Monroe argues, but formative agents that influence human behavior and shape historical events. Drawing on research from many disciplines, including rhetoric, southern studies, history, sociology, and African American studies, Monroe develops the concept of confederate rhetoric: the collection of Old South words and symbols that have been and remain central to the identity conflicts of the South. He charts examples of such rhetoric at work in southern universities from Reconstruction to the present day. Tracing the long life and legacy of Old South words and symbols at southern universities, this book provides close and nuanced analysis of the rhetorical conflicts that have resulted at places like the University of Mississippi and the University of Missouri. Some conflicts erupted during the civil rights movement, when the first African American students pushed their way into all-white southern universities and colleges, and others are brewing now, as African Americans (and their progressive white peers) begin to cement genuine agency and voice in these communities. Tensions have been, and remain, high. Remnants of the old majority continue to recruit modern adherents. The white majority may be in decline by many measures, but it is also powerful and resilient, still standing guard in defense of Old South traditions. Ultimately, Monroe offers hope and optimism, contending that if words and symbols can be used to damage and divide, then words and symbols can also be used to heal and unify. Racist rhetoric can be replaced by antiracist rhetoric. The old South can become new. While resisting naive or facile arguments, *Heritage and Hate* ultimately finds the promise of progress within the tremendous power of language.
